MOHD. MUSHEER

Machine Learning Engineer | ML Systems & HPC

+91 9370086707 | musheerayan@gmail.com | musheer.me | LinkedIn | GitHub | Amravati, Maharashtra

PROFESSIONAL SUMMARY

Machine Learning Engineer with strong foundations in machine learning, deep learning, and model optimization. Experienced in building and deploying scalable ML systems using Python and PyTorch, with hands-on work in NLP, transformer models, and real-world applications. Passionate about solving practical problems through efficient, production-ready AI solutions.

EDUCATION

Bachelor of Computer Applications (BCA)
Takshashila Mahavidyalaya, Amravati
Expected Graduation: May 2026

TECHNICAL SKILLS

Programming: **Python, SQL, R, C++**
Machine Learning: **Linear Models, Tree-Based Models, Ensemble Methods, Optimization Algorithms, Model Evaluation**
High-Performance Computing**: BLAS, LAPACK, OpenMP, Memory Optimization, Zero-Copy Data Exchange**
Deep Learning & NLP: PyTorch, Transformer Architectures (PRIMERA/LED), Hugging Face
Natural Language Processing**: TF-IDF, Cosine Similarity, Text Preprocessing**
Deployment & DevOps: FastAPI, Docker, REST APIs, CI/CD, Cloud (AWS/GCP)
Tools: **Git, GitHub, VS Code, Jupyter Notebook**

EXPERIENCE

Machine Learning Intern – Future Interns | Jan 2026 – Feb 2026 Certificate

- Developed NLP-based resume ranking system processing 1,000+ resumes using TF-IDF
- Performed EDA and feature engineering to improve model performance by 10%
- Evaluated classification models using Accuracy, Precision, Recall, and F1-score
- Awarded Letter of Recommendation for exemplary internship performance

PROJECTS

VectorForgeML — ML Framework (R & C++) | CRAN Published

- Built a research-grade ML framework integrating R with a high-performance C++ backend
- Implemented core algorithms (Linear/Logistic Regression, Decision Trees, Random Forest, KNN, PCA, K-Means) from scratch
- Integrated BLAS/LAPACK for optimized linear algebra and OpenMP for parallel processing
- Designed modular Pipeline system with zero-copy R–C++ memory interface
- Published and accepted on **CRAN (Comprehensive R Archive Network)**

Indian News Summarizer (ROUGE-1: 71%) (GitHub)

- Fine-tuned PRIMERA transformer model for abstractive summarization of Indian news articles
- Achieved ROUGE-1: 71% and BERTScore: 0.93 for factual consistency
- Built FastAPI backend with real-time inference and Dockerized for scalable deployment.

AI Resume Ranker & Candidate Screening System (GitHub) (Live)

- Built ATS-style NLP system using TF-IDF and cosine similarity
- Implemented dynamic skill matching and candidate ranking
- Deployed using FastAPI and Docker
